Dear Sir:

The above-identified was filed initially with a request for nonpublication because there was no intention at that time to file an application for the subject matter of the invention in a foreign country or under a multinational treaty which requires publication of the application eighteen months after the filing.

On February 25, 2003, an application for the subject matter of this invention was filed under the international phase of Patent Cooperation Treaty with the United States Patent and Trademark Office. On May 29, 2003, Applicant filed a Notice of Foreign or International Filing with the Request to Rescind Previous Nonpublication Request. Since the filing of the Request to Rescind and the Notice of International Filing occurred later than forty-five days after the filing, the above-identified application became abandoned pursuant to 35 U.S.C. §122(b)(2)(B)(iii) for

failure to timely notify the Office of the filing of an application in a foreign country or under a multinational international treaty that requires publication of applications eighteen months after filing.

Applicant hereby petitions for revival of this application under 37 C.F.R §1.137(f).

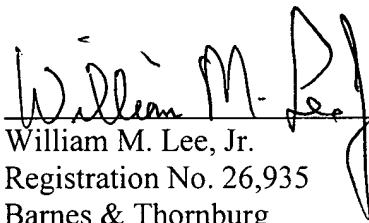

Applicant declares that the entire delay in filing the required notice of a foreign filing or international filing from the due date for the required notice until the filing of a grantable petition under 37 C.F.R. §1.137(b) was unintentional. In fact, when this error was realized, the applicants immediately commenced to make a wholesale correction in this and four other PCT applications for the same client. All corrections were made well prior to the entry into the national phase.

There are no other outstanding matters for this application.

A check in the amount of \$650.00 is enclosed for the petition fee under 37 C.F.R. §1.17(m). Charge any additional fees required or credit any overpayment to Deposit Account No. 12-0913.

Respectfully submitted,
